- Profit before Tax (PBT) stood at Rs. 5.67 Crores against Rs 3.49 Crores in Q4 FY25, reflecting an improvement driven by operational efficiency and stabilization in the Raw Material Prices.
- Profit after Tax (PAT) stood at Rs 4.75 Crores against Rs 2.44 Crores in Q4 FY25.

Commenting on the Results, Mr. K.K.Sardana, Managing Director said,

"We are pleased to present our financial and operational performance for the first quarter of FY26. Revenue from operations remained steady at ₹367.20 crores with Profit Before Tax (PBT) at ₹5.67 crores. Since the prices of some finished goods have stabilized and the demand from some key sectors has started showing an upward trend, we expect the profitability to improve in the coming quarters.

The Starch Industry is showing early signs of stabilization in raw material prices, aided by government measures to support maize cultivation. Looking ahead, better maize availability, improving demand trends, and supportive pricing are expected to contribute positively to our performance in the second half of FY26. We remain optimistic about the emerging opportunities in market. With a continued emphasis on customer-centricity and sustainable practices, we are confident in our ability to deliver enduring value to all stakeholders and maintain a sustainable growth trajectory in the years ahead."
